## Tax Preparation Consulting

### Do You Pay Too Much Tax?

If you're like most Americans, you probably think you pay too much tax. And you're probably right! So perhaps you're considering a new tax pro this year.

Most tax professionals do a fine job putting the "right" numbers in the "right" boxes on the "right" forms. But then they call it a day.

It doesn't matter how good your tax preparer is with a stack of receipts on April 15. The real secret to reducing your tax bill is *planning*.

At Scholl & Company, CPA we're different! We don't just record history. We help you write it, with a complete lineup of court-tested, IRS-approved concepts and strategies to give you the savings you really want.

18275 Meadow Song Way
